VAGHELA KARANRAJSINH

Front-End Developer

@ vaghelakaranraj54@gmail.com   Github   in Linkedin   My Portfolio

EXPERIENCE

Open Source Contributor
RxResume

📅 Jan 2025   📍 Remote

- **Contirbution** : https://github.com/AmruthPillai/Reactive-Resume/pull/2114
- Contributed to an open source resume builder which got merged successfully , to fix a frontend issue of spacing and overflow in the mobile screen by using builders resuable scroll components and improved layout spacing and sizing of section for mobile screen for better user interaction.

Next.js Developer Intern
WorkBinders

📅 Dec 2024 – Jan 2025   📍 (Rajasthan) Remote

- Built responsive frontend for a website from scratch, including creation of reusable Next.js components for re-usability.
- Implemented custom CSS animations and integrated REST APIs while ensuring mobile-first design principles.
- Translated 40+ Figma Screens into pixel-perfect layouts, with focus on debugging and resolving UI inconsistencies.

Social Summer Intern
Atmiya University

📅 Apr 2023 – May 2023   📍 Rajkot

- Designed and developed a university E-Library platform using HTML, CSS, JavaScript, and Bootstrap.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Next.js, TypeScript, React-Hook-Form, Redux, Framer Motion, Tanstack Query
- **UI Libraries:** Tailwind CSS, Bootstrap, ShadCN UI, Radix-UI
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, Supabase, Firebase
- **Tools:** GitLab, Git, Vercel

CERTIFICATIONS

- The Ultimate React Course 2024: React, Next.js, Redux & More (Udemy)
- The Complete Javascript Course From Zero To Expert (Udemy)
- Conquering Responsive Layouts (Kevin Powell)

EDUCATION

Bachelor of Technology
7 CGPA

📅 2021 – 2025   📍 Atmiya University

PROJECTS

Task Manager

- Built a full-stack task management app using Next.js, PostgreSQL, and Drizzle ORM with TypeScript for type safety.
- Implemented authentication using Clerk, real-time data fetching with TanStack Query, and UI components with shadcn/ui.
- Developed features including task CRUD operations, task categorization into projects , calendar view and data insights of task on dashboard , search task with filter and sorting
- **Website:** https://task-manager-kv.vercel.app

AI-GEN CV - Resume Builder

- Built a full-stack resume builder with Next.js, TypeScript, and TailwindCSS with OAuth authentication using Supabase SSR.
- Integrated Gemini API for AI-powered content generation and Puppeteer for PDF generation with Node.js backend.
- Implemented state management using ContextAPI and added smooth animations with Framer Motion.
- **Website:** https://aigencv.vercel.app

MyFoodRecipes - Recipe Platform

- Developed a multi-user recipe platform using React.js, Vite, and Firebase for data storage.
- Created complex search filtering system and implemented real-time updates using React-Query.
- Built user authentication and role-based access control for managing recipe permissions.
- **Website:** https://food-recipe-app-36580.web.app

Mapty Workout - Fitness Tracker

- Engineered a workout tracking application using JavaScript and Leaflet.js following OOP principles.
- Implemented geolocation mapping with support for multiple map views including 3D visualization.
- Created a filtering system for workouts with local storage persistence for data management.
- **Website:** https://mapty-project-kv.netlify.app
